A top-of-the-range multichannel electronic/pneumatic underpinner that will effortlessly join a wide variety of frame profiles in a single work cycle. Ideal for larger, high-production facilities that require high-speed assembly and frequent changeovers.

The A6 MemoTS+ is an advanced version of the A5 MemoTS. It incorporates a special multichannel magazine that can hold five different wedge sizes that enables operators to use different sized wedges within the same work cycle.

It features the same programming facilities as the A5 Memo using a Windows interface to store a vast quantity of profile data that can be instantly selected via the touch screen or by scanning with the optional barcode reader.

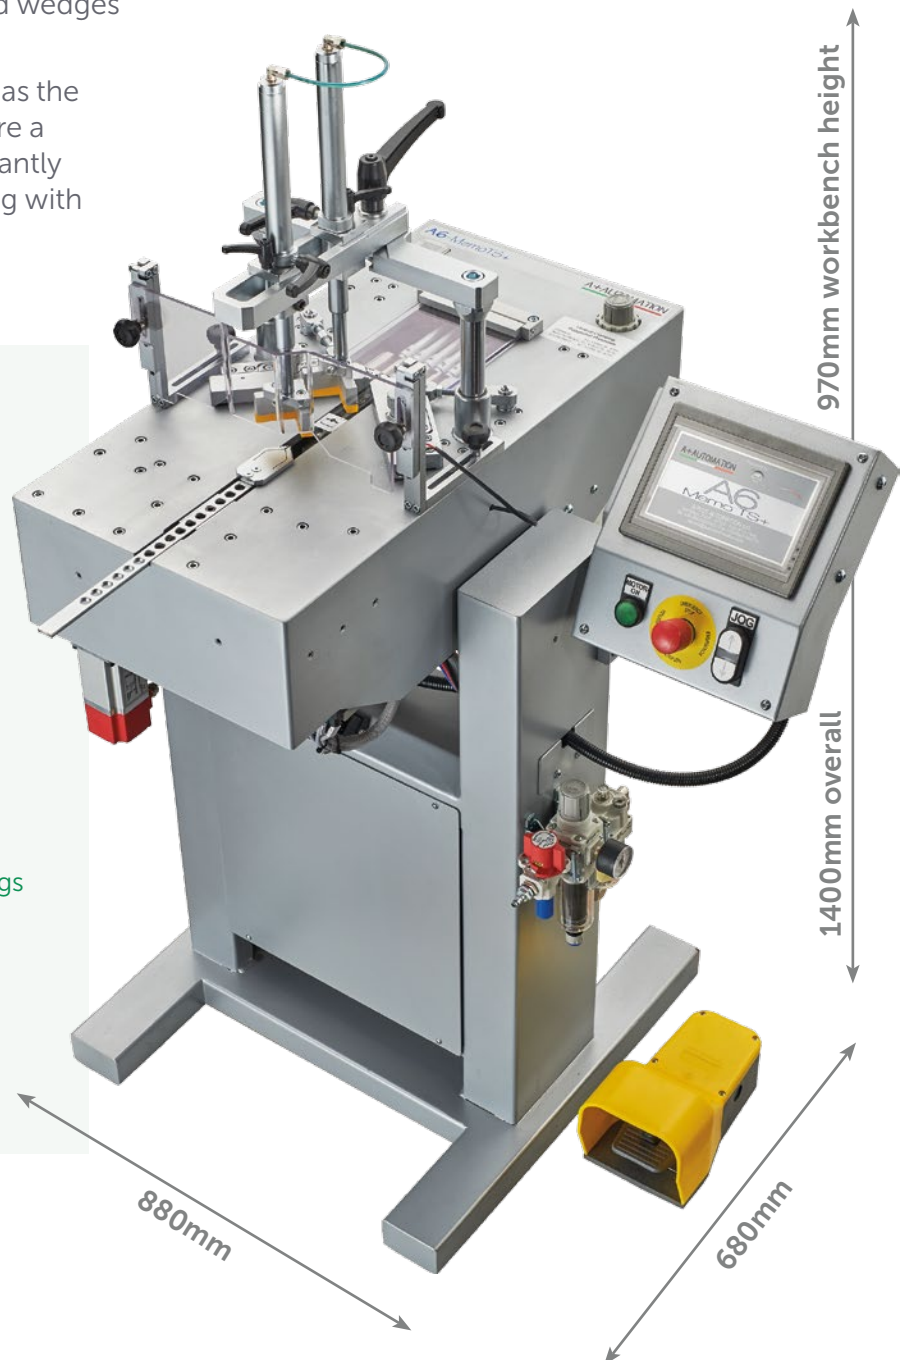

In addition, horizontal, vertical and fence clamping mechanisms ensure optimum stability enabling precise joins every time.

An A6 Basic version is also available. This comes without the adjustable tilting fence and double hydraulic clamp and with the power grip rod as an optional accessory.

Features

- Multichannel magazine holds five different wedge sizes
- Programmes the size, number and position of wedges and cycle speed
- Horizontal, vertical and fence clamping mechanisms for optimum stability
- Wedges can be driven or stacked in up to 10 positions per joint
- Can join wood, plastic and MDF mouldings
- Digital pressure gauge
- Extra-strong nail driver for trouble-free operation year after year
- Fast, efficient and reliable

A demo model is available to try in our workshop!

Smart Windows technology to store profile details

Multichannel magazine that can hold five different wedge sizes

Double hydraulic clamp

Technical Specification

Frame width (min/max):	10mm – 110mm
Frame height (min/max):	6mm – 107mm
Wedge magazine capacity:	220
Standard wedge size:	5mm, 7mm, 10mm, 12mm, 15mm
Pneumatic feed:	5-7 Bar/70-100 Psi
Air consumption:	4NL at 5 Bar 0.14cf ³ at 73 Psi
Weight:	135kg/298lbs approx.
Height of workbench:	970mm
Power supply:	220V 50Hz/110V 60Hz

Standard Accessories

- Five-channel magazine for 5mm, 7mm, 10mm, 12mm and 15mm wedges
- Adjustable tilting fence with special frame tightening device
- Power Grip pad holder rod, cross bar and single pad
- 5mm Allen wrench and magnetic pen
- Double hydraulic clamp

Optional Accessories

- Enhanced 10" screen
- Customisable magazine
- Metal extension wings
- Barcode reader

A+AUTOMATION

A+ Automation has been providing the picture framing industry with high-performance cutting and joining equipment for over twenty years. Superior engineering and advanced research has led to a well-earned reputation for innovative high-quality machines that are safe, durable and extremely reliable.
